VENDOR PAYMENT POLICY: All vending fees are **NON-REFUNDABLE**. Your payment of the entry fee constitutes your right to participate at the festival. Should any entry fees not clear our account, or are contested or not be paid in full, you have no right to participate at the event and will be subject to all Legal, court, and/or collection fees. All sales are final, there are **NO REFUNDS**.

VENDOR TENTS: Vendor Tent Spaces are 10'x10' if you wish to have a 10x20 or larger vendor space there will be an additional charge for special permit. If your setup a larger space than paid for you will be subject to pay for the extra space. Please specify when reserving your Food Vendor space and request additional info in order to determine which option works for you. **No Tent Staking:** You are not allowed to stake the tents into the ground.

Kissimmee Tent Policy: The City of Kissimmee requires that every tent and canopy, used at Lakefront Park be attached to an approved weight. All tents and canopies must be sufficiently and safely secured to the ground from the moment the tent or canopy is erected at the start of the event to the moment immediately before it is taken down at the end of the event. Tents and canopies are considered sufficiently secured with at least 24 pounds per leg.

Some notes regarding weights:

- ☒ Weights should be secured in a manner that does not create its own safety hazard.
- ☒ Weights should not cause a tripping hazard
- ☒ Weights should be tethered with lines that are clearly visible
- ☒ Weights should have soft edges to avoid causing cuts and scrapes
- ☒ Weights should be securely attached

Weights should be on the ground (NOT above people's heads). If tents or canopies are NOT adequately secured, the City of Kissimmee will require them to take tents/canopies down and sell without them. If tents/canopies need to be taken down in the middle of the event, vendors are expected to direct customers to a safe place so they will not be injured. If vendor does not comply fines and penalties will occur.

Examples of sufficient and safe weights include:

- Filling an empty paint can with cement and tying this to each corner of the tent with a rope or bungee. It is NOT sufficient to place the can on the feet of the tent.
- Filing containers with sand/cement that can be anchored or secured with a rope or bungee; these include canvas bags or plastic buckets/containers that have a handle through which a rope or bungee can be secured.
- PVC pipe capped and filled with cement must be hung on the inside of canopy poles and secured to the top braces of canopy in a way that it does not collide with customers or create a hazard.

Examples of NOT sufficient or safe weights:

- Gallon water jugs. These are not heavy enough for large gusts of wind.
- Tying tents, canopies or umbrellas to tables, coolers or vehicles. Sandbags that cannot be set upright and securely tied to the tent or canopy should not be used.
